

## BC793 Fall 2021 Research Seminar: Syllabus and Schedule

-Course instructor: Jennifer DeLuca (jdeluca@colostate.edu)

- All Ph.D. students in their third year and beyond will present a ~45 minute seminar that summarizes their research progress during the past year. Second-year Ph.D. students will present a 20 minute seminar describing initial results and the proposed goals of their research projects.
  - Students must email a title and abstract to me (jdeluca@colostate.edu) by the **Friday before the seminar**.
  - Students should request that their SAC members attend the seminar.
  - Students are required to provide each SAC member with a written progress report by the Tuesday *one week before* their seminar and meet with their SAC *within two weeks* following their seminar.
  - If you need to make a change in the schedule then it is your responsibility to work out a time swap with another speaker and let me know about the change (changes must be cleared with the PIs of both students).
- Weekly attendance is mandatory for ALL graduate students, and attendance will be recorded. If you are unable to attend, please email me prior to the class.
