¹Students are encouraged to use their elective credits on undergraduate research or apply them toward a minor.

²BMS 301 should be taken by students pursuing health and medical fields related to human health. BMS 305 should be taken by students pursuing health and medical fields related to veterinary medicine. Students who take BMS 305 will need to complete one additional "elective" credit to obtain the total 120 credits needed to graduate.

Students interested in applying to a professional program in the health and medical field should meet with a Health Professions Advisor:
